

Happy January 2022 From KKI Associates

Don't be Gloomy in January...

Some people get gloomy in January, but there are lots of things to celebrate this month!

Reasons to Celebrate January

[Winnie the Pooh Day](#)

Why We feel SAD in January

Although we say the shortest day is December 21, it actually carries on getting darker in the mornings well into January. In London, the latest sunrise in January 2022 is 8.06 am on January 2. In Edinburgh the latest sunrise is 8.43 am from Dec 25 to Jan 2, while in New York it doesn't start getting lighter until January 7. Have fun checking other places with this web-site: [World Sunrise Clock](#)

(Science) Things to Look forward to in 2022

KKI Highlights from 2020-21

Training in a 'Zoom World' – Innovation & Commercialization Videos

Kevin and Tony made videos for the Royal Society of Edinburgh's Enterprise Fellowship Programme:

[Innovation & Markets](#)

[Intellectual Property](#)

[You and your team](#)

[Funding and Raising Money](#)

These videos give us the ability to deliver Innovation Skills Workshops remotely during lockdown – contact us for more details.

More Videos

Kevin gave 18 pro bono career talks to schools and Universities around the UK. A couple of the talks were videoed and can be seen at:

Good News of the Year

Some KKI contacts may be aware that we've been fund-raising to help a Syrian student, Majida Ibrahim, take up a place at Exeter University. Majida's Ph.D, in Arabic translation studies, seeks to answer the simple but crucial question: *'Feminist Writers in Arabic are nearly always translated in to English by Men - does this matter?'* Its taken 7 years of fund-raising, but Majida started her Ph.D in September! See [Majida's Ph.D fund](#)
